EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application is in condition for allowance except for the presence of claims 12-15 and 18-20 elected without traverse in the reply filed on 01/24/05.

Accordingly, claims 12-15 and 18-20 have been canceled.

Allowable Subject Matter

2. Claims 1-11, 16 and 17 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior arts of record do not anticipate or render obvious to one skilled in the art a fabricating method of a substrate for a liquid crystal display device, comprising several steps as claimed, more specifically the limitation such as wherein each open portion corresponds to each sub-pixel region and is smaller than each sub-pixel region is considered novel.

The closest reference USPAT 6,794,216 (commonly assigned) discloses a fabricating method of a substrate for a liquid crystal display device wherein the cholesteric liquid crystal layer is cured through the open portions of the mask and wherein the open portion is smaller than each sub-pixel region. However, the above reference alone or in combination with any other references fail to teach or suggest the claimed fabricating method wherein the open portion of the mask corresponds to each sub-pixel region.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
